To Whom It May Concern:

Carly's Club at Roswell Park Cancer Institute is thrilled to announce a partnership with Catching Dreams, LLC to provide pediatric cancer patients and their families a unique fishing experience on the waters of Lake Erie.

Carly's Club was founded by Carly Collard Cottone who wanted to make a difference for other young cancer patients and whose legacy lives on every day at Roswell Park Cancer Institute, one of the nation's top comprehensive cancer centers. As the pediatric fundraising and program entity of the Roswell Park Alliance Foundation, the not-for-profit organization that manages all donations made to Roswell Park Cancer Institute, Carly's Club serves hundreds of pediatric cancer patients across Western New York. We are dedicated to funding critical pediatric cancer research seeking cures at Roswell Park as well as supporting crucial, year-round programs that meet Roswell Park's youngest patients' emotional and social needs.

Catching Dreams LLC, is a Niagara County based charter company dedicated to creating memorable fishing experiences on the waters of Lake Erie and the Niagara River. Carly's Club has partnered with USCG Captain, Ned Librock and Catching Dreams LLC in order to provide this unique fishing experience to Western New York pediatric cancer patients and their families. These special opportunities allow kids who are battling cancer to regain a sense of normalcy in their lives, find respite from the challenges of cancer treatment and spend time learning and enjoying a new activity.

It is thanks Catching Dreams LLC and Captain Ned Librock that we are able to continue Carly's legacy, providing hope and an extra "dose" of happiness to children and teens diagnosed with cancer. Our partnership with Catching Dreams LLC is one more outlet to ensure our pediatric cancer patients and their families will never have to face cancer alone.

Best regards,

Robin Nusbaum
Program and Event Manager
